EXPERIENCE

Full Stack Developer, Insight Fusion Analytics (IFA), Mumbai Nov 2025 – Present

- Built and scaled web apps with React, Next.js, and Node.js serving 1K+ daily active users across 3 product lines (real-estate analytics, sports data, client portals).
- Designed incremental ETL pipelines in PostgreSQL and built REST APIs for real-time data ingestion and evaluation.
- Automated client onboarding with an n8n system (Slack + Google Sheets/Forms) that auto-provisions per-client channels and routes requests fully hands-off, removing manual setup.

Elite Project Analyst, Hudl (Instat), Mumbai May 2026 – Present

- Lead a team of match analysts on Hudl's Instat platform — break down 3 live ice-hockey game periods daily, delivering 50+ player-performance and tactical data points per game to professional teams and coaches.
- Validate sports-analytics data across 50+ game metrics for the analytics products used by coaching staff, partnering with product, engineering, and data-science teams to surface data-quality issues and improve the data-to-decision pipeline.

Freelance Full Stack Developer, Self-Employed Dec 2025 – Present

- Delivered production websites end-to-end (stakeholder interviews → spec → build → launch) for Godrej Properties (conversion-focused lead generation), Max Extrusions, and Wasro (B2B corporate and brand sites).

PROJECTS

Backtesting Engine — Next.js — TypeScript — FastAPI — PostgreSQL [GitHub](#)

- Full-stack platform that backtests stock-market strategies against historical datasets, returning profit/loss performance metrics via a FastAPI + PostgreSQL engine.

NexPrep AI — Next.js — TypeScript — MongoDB — Firebase [Live](#) — [GitHub](#)

- AI-powered mock-interview platform with real-time evaluation, automated feedback, and ATS resume parsing; surveyed 20 users before building to shape the product.

16 Strategic Product Teardowns — Revenue Models, Unit Economics & Growth [View all](#)

- Analyzed pricing, monetization, and profitability for Netflix, Uber, Spotify, Reliance Jio, and more — framing the business problem, key metrics, trade-offs, and a clear recommendation for each.

CERTIFICATIONS

IBM Certified Professional – Product Management (Coursera) — Advanced Java – Spring Boot & Hibernate — Agile & Scrum (Coursera)

ACHIEVEMENTS

- 1st Place — IFA Hackathon; secured internship based on the winning solution.
